
MySQL Enterprise Backup 9.6 Release Notes

Abstract

This document contains information about changes in MySQL Enterprise Backup version 9.6, including information about added or changed functionality, bug fixes, and any known issues, as applicable. For information about changes in a different version of MySQL Enterprise Backup, see the release notes for that version.

For additional MySQL Enterprise Backup 9.6 documentation, see the [MySQL Enterprise Backup User's Guide \(Version 9.6.0\)](#).

For legal information, see the [Legal Notices](#).

For help with using MySQL, please visit the [MySQL Forums](#), where you can discuss your issues with other MySQL users.

License Restrictions

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

Warranty Disclaimer

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

Restricted Rights Notice

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications

of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

Hazardous Applications Notice

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Trademark Notice

Oracle, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

Third-Party Content, Products, and Services Disclaimer

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Use of This Documentation

This documentation is NOT distributed under a GPL license. Use of this documentation is subject to the following terms:

You may create a printed copy of this documentation solely for your own personal use. Conversion to other formats is allowed as long as the actual content is not altered or edited in any way. You shall not publish or distribute this documentation in any form or on any media, except if you distribute the documentation in a manner similar to how Oracle disseminates it (that is, electronically for download on a Web site with the software) or on a CD-ROM or similar medium, provided however that the documentation is disseminated together with the software on the same medium. Any other use, such as any dissemination of printed copies or use of this documentation, in whole or in part, in another publication, requires the prior written consent from an authorized representative of Oracle. Oracle and/or its affiliates reserve any and all rights to this documentation not expressly granted above.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support for Accessibility

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Changes in MySQL Enterprise Backup 9.6.0 (2026-01-20)

MySQL Enterprise Backup 9.6.0 is the latest Innovation Release for MySQL Enterprise Backup. It supports MySQL Server 9.6.0.

This release contains no functional changes and is published to align its version number with that of the MySQL Server 9.6.0 release.

Changes in MySQL Enterprise Backup 9.5.0 (2025-10-21)

Note

These release notes were created with the assistance of MySQL HeatWave GenAI.

MySQL Enterprise Backup 9.5.0 is the latest Innovation Release for MySQL Enterprise Backup. It supports MySQL Server 9.5.0.

Bugs Fixed

- Incremental backups could fail validation if multiple system tablespaces are present. Errors were returned similar to the following:

```
Corrupt page or header encountered
```

(Bug #37853150)

Changes in MySQL Enterprise Backup 9.4.0 (2025-07-22)

Note

These release notes were created with the assistance of MySQL HeatWave GenAI.

MySQL Enterprise Backup 9.4.0 is the latest Innovation Release for MySQL Enterprise Backup. It supports MySQL Server 9.4.0.

- [Functionality Added or Changed](#)
- [Bugs Fixed](#)

Functionality Added or Changed

- MySQL Enterprise Backup now replicates backup information across all members of a ReplicaSet setup, regardless of whether the backup is performed on the primary or a secondary node. It ensures that the `backup_history`, `backup_sbt_history` (if using the SBT API), and `backup_progress` tables are always updated on the primary node, so that the backup information is replicated to all nodes in the ReplicaSet setup. The feature ensures consistency of backup history and metadata across the ReplicateSet, allows easier management of backups, and enables

incremental backups on any one of the secondary nodes, which now has the last backup recorded in its `backup_history` tables. (WL #16871)

Bugs Fixed

- When a TTS image backup taken with full-locking was restored by streaming the image to `mysqlbackup`, the restore failed due to a tail magic mismatch. (Bug #37196546)
- After a backup was finished, the values of the server's status variables `Com_stmt_prepare` and `Com_stmt_close` did not match. It was because `mysqlbackup`, after using prepared statements to query the server, closed its connection to the server prematurely. With this fix, `Com_stmt_close` is also incremented before `mysqlbackup` disconnects from the server. (Bug #34624351)

Changes in MySQL Enterprise Backup 9.3.0 (2025-04-15)

MySQL Enterprise Backup 9.3.0 is the latest Innovation Release for MySQL Enterprise Backup. It supports MySQL Server 9.3.0.

Functionality Added or Changed

- **Important Change:** For platforms on which OpenSSL libraries are bundled, the linked OpenSSL library for MySQL Enterprise Backup has been updated to version 3.0.16. Issues fixed in OpenSSL version 3.0.16 are described at <https://openssl-library.org/news/openssl-3.0-notes/>. (Bug #37618845)
- MySQL Enterprise Backup now uses the HTTPS protocol for REST API calls to the Amazon S3 service for data backup and restoration. (Bug #37272192)

Changes in MySQL Enterprise Backup 9.2.0 (2025-01-21)

MySQL Enterprise Backup 9.2.0 is the latest Innovation Release for MySQL Enterprise Backup. It supports MySQL Server 9.2.0.

This release contains no functional changes and is published to align its version number with that of the MySQL Server 9.2.0 release.

Changes in MySQL Enterprise Backup 9.1.0 (2024-10-15)

MySQL Enterprise Backup 9.1.0 is the latest Innovation Release for MySQL Enterprise Backup. It supports MySQL Server 9.1.0.

Functionality Added or Changed

- **Important Change:** For platforms on which OpenSSL libraries are bundled, the linked OpenSSL library for MySQL Enterprise Backup has been updated to version 3.0.15. Issues fixed in OpenSSL version 3.0.15 are described at <https://openssl-library.org/news/openssl-3.0-notes/>. (Bug #37044692)
- The LZMA library bundled in MySQL Enterprise Backup has been upgraded to version 24.07. (Bug #36919653)
- Starting from this release, MySQL Enterprise Backup provides wider compatibility with different versions of MySQL Server and MySQL Enterprise Backup. See [Compatibility with MySQL Versions](#) and [Compatibility with Older MySQL Enterprise Backup](#) for details. (WL #16374)

Changes in MySQL Enterprise Backup 9.0.1 (2024-07-23)

MySQL Enterprise Backup 9.0.1 is the latest Innovation Release for MySQL Enterprise Backup, and supports MySQL Server 9.0.1 only. For other versions of MySQL, use the supported versions of

MySQL Enterprise Backup as specified in the MySQL Enterprise Backup User's Guide having the corresponding version number.

This release contains no functional changes and is published to align its version number with that of the MySQL Server 9.0.1 release.

Changes in MySQL Enterprise Backup 9.0.0 (2024-07-01)

Important

This release is no longer available for download. It was removed due to a dependency on a version of the server which is also no longer available for download. See [MySQL 9.0.0 Release Notes](#). Please upgrade to MySQL Enterprise Backup 9.0.1 instead.

MySQL Enterprise Backup 9.0.0 is the latest Innovation Release for MySQL Enterprise Backup, and supports MySQL Server 9.0.0 only. For other versions of MySQL, use the supported versions of MySQL Enterprise Backup as specified in the MySQL Enterprise Backup User's Guide having the corresponding version number.

The following list contains functionality changes and bug fixes for MySQL Enterprise Backup 9.0.0 in comparison to release 8.4.0.

Bugs Fixed

- The Windows executable for MySQL Enterprise Backup listed the wrong product name under its Properties. (Bug #36510981)
